College-Prep Academics

for serious student-athletes

Imagine a school year where your child's potential isn't limited by the clock. Where their athletic ambitions and academic goals are treated with equal focus.
That's the reality we've built at GSI Academy. It's a full-time school program designed to empower dedicated student-athletes to win at both – training and learning at their absolute best, every single day.

Curriculum Benefits

01. Flexible

02. Efficient

03. Relevant

04. Modern

Flexibility & Efficiency

01

Asynchronous curriculum(s) allow for morning and afternoon training times

02

Travel for tournaments and games without truancy concerns

03

Student-athletes can complete their work on the road, even out of the country, to ensure consistent work, if necessary

04

SAI Academy pacing allows for breaks to be taken during big tournaments and/or games so that the athlete is completely focused on volleyball during that time

A Relevant & Modern Approach

Blended Learning

- Virtual curriculums allow students to work at any time that best suits their schedule
- Student-athletes are monitored both in-person in a classroom provided by the club as well as remotely during travel and tournaments, if necessary, to ensure progress is being made consistently
- Students are participating in a college prep program, preparing for life outside of the academies and post-volleyball career

Academic & Progression Counseling

- We have staff that will support and monitor each student daily
- We evaluate the progress of each student according to their needs and abilities
- We pace and advance the student through the American curriculum while monitoring their understanding of the material
- Our staff will assist in guiding students through their academic and career choices each year
- We ensure all students are NCAA eligible and assist with scholarship eligibility

Individualized Student Learning Plan

Our goal is to enhance student support and family communication

We will take on the burden of tracking each students individualized pace and student progression throughout the semester

Individualized pathway for college readiness:

- Honors courses
- Advanced Placement courses
- Dual Enrollment support
- SAT/ACT prep

Academic Accountability

Academic Zone

At SAI, we use two measures to determine a student's academic zone : overall grade in each course and course pacing. Below is a breakdown of how we hold student's accountable for their learning.

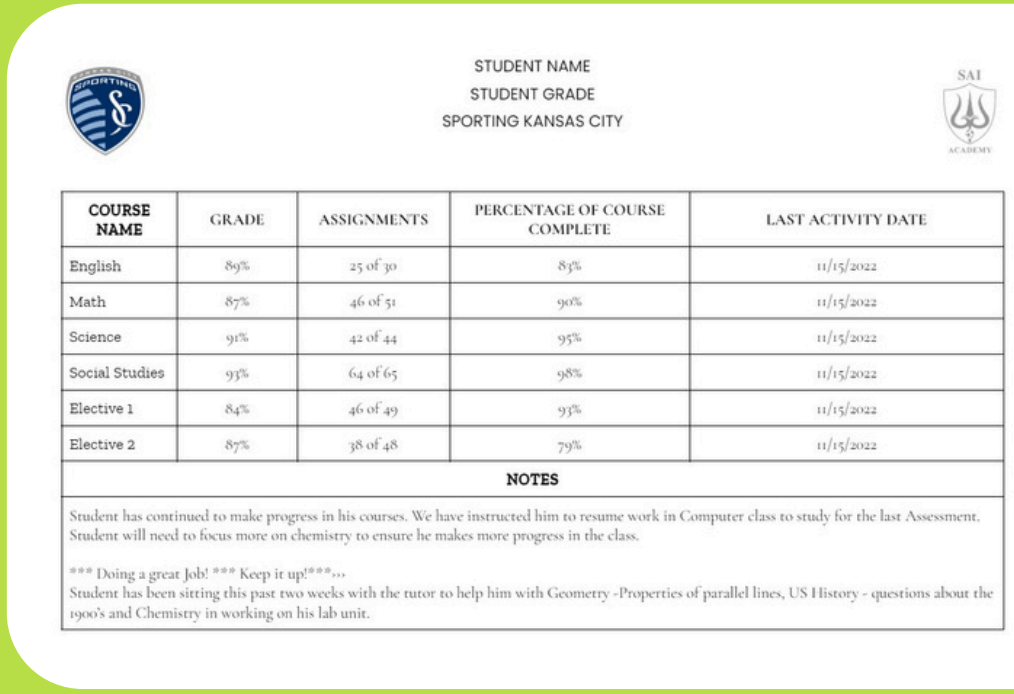

Level	Pacing (assignments)	Course Grade	Action Taken
On Track	0-4	80%+	**Continue working hard and working towards your short and long term academic goals.**
Warning	5-7	70-79%	**Pacing Concern:** Meet with the LC during class to create a catch up plan to ensure you can catch up on assignments for homework. Work outside of class may be needed in order to get back on track. **Grade Concern:** Meet with LC to review assignments completed. Determine what additional learning sessions needed to help enhance learning to strengthen understanding of concepts. Outline what redo assignments need to be completed to raise grades after support.
Urgent	8+	69% and below	**Pacing Concern:** LC creates individualized catch up plans for students and informs families. Work outside of class is required. **Grade Concern:** LC will schedule meetings with teacher and student to review misconceptions and create a plan for intervention. Additional academic sessions will be required. The student will be provided with an individual check-in schedule with the LC to ensure they are being supported.

*These zones are used to help support students and create a common language between all members of the community. SAI's goal is to ensure that students are given what they need in order to achieve academic success. The team will observe academic trends and provide tools to students and families throughout the school year.

Academic Update to Family

Families will receive academic updates. The purpose of each academic plan is to update families on the current progress.

- Pacing Update
- Assessments
- General Announcements
- Overdue Assignments
- Participation

STUDENT NAME
STUDENT GRADE
SPORTING KANSAS CITY

COURSE NAME	GRADE	ASSIGNMENTS	PERCENTAGE OF COURSE COMPLETE	LAST ACTIVITY DATE
English	89%	25 of 30	83%	11/15/2022
Math	87%	46 of 51	90%	11/15/2022
Science	91%	42 of 44	95%	11/15/2022
Social Studies	93%	64 of 65	98%	11/15/2022
Elective 1	84%	46 of 49	93%	11/15/2022
Elective 2	87%	38 of 48	79%	11/15/2022

NOTES

Student has continued to make progress in his courses. We have instructed him to resume work in Computer class to study for the last Assessment. Student will need to focus more on chemistry to ensure he makes more progress in the class.

*** Doing a great Job! *** Keep it up!***,,,
Student has been sitting this past two weeks with the tutor to help him with Geometry -Properties of parallel lines, US History - questions about the 1900's and Chemistry in working on his lab unit.
